

Integrating with Configuration Managers

Ned Bellavance

FOUNDER, NED IN THE CLOUD LLC

@ned1313 www.nedinthecloud.com

Overview

Configuration management

Deployment patterns

Globomantics integration

Configuration Management

Identification

What to manage

Control

How to manage

Accounting

How to report

Verification

How to validate

Deployment Options

Terraform hand-off

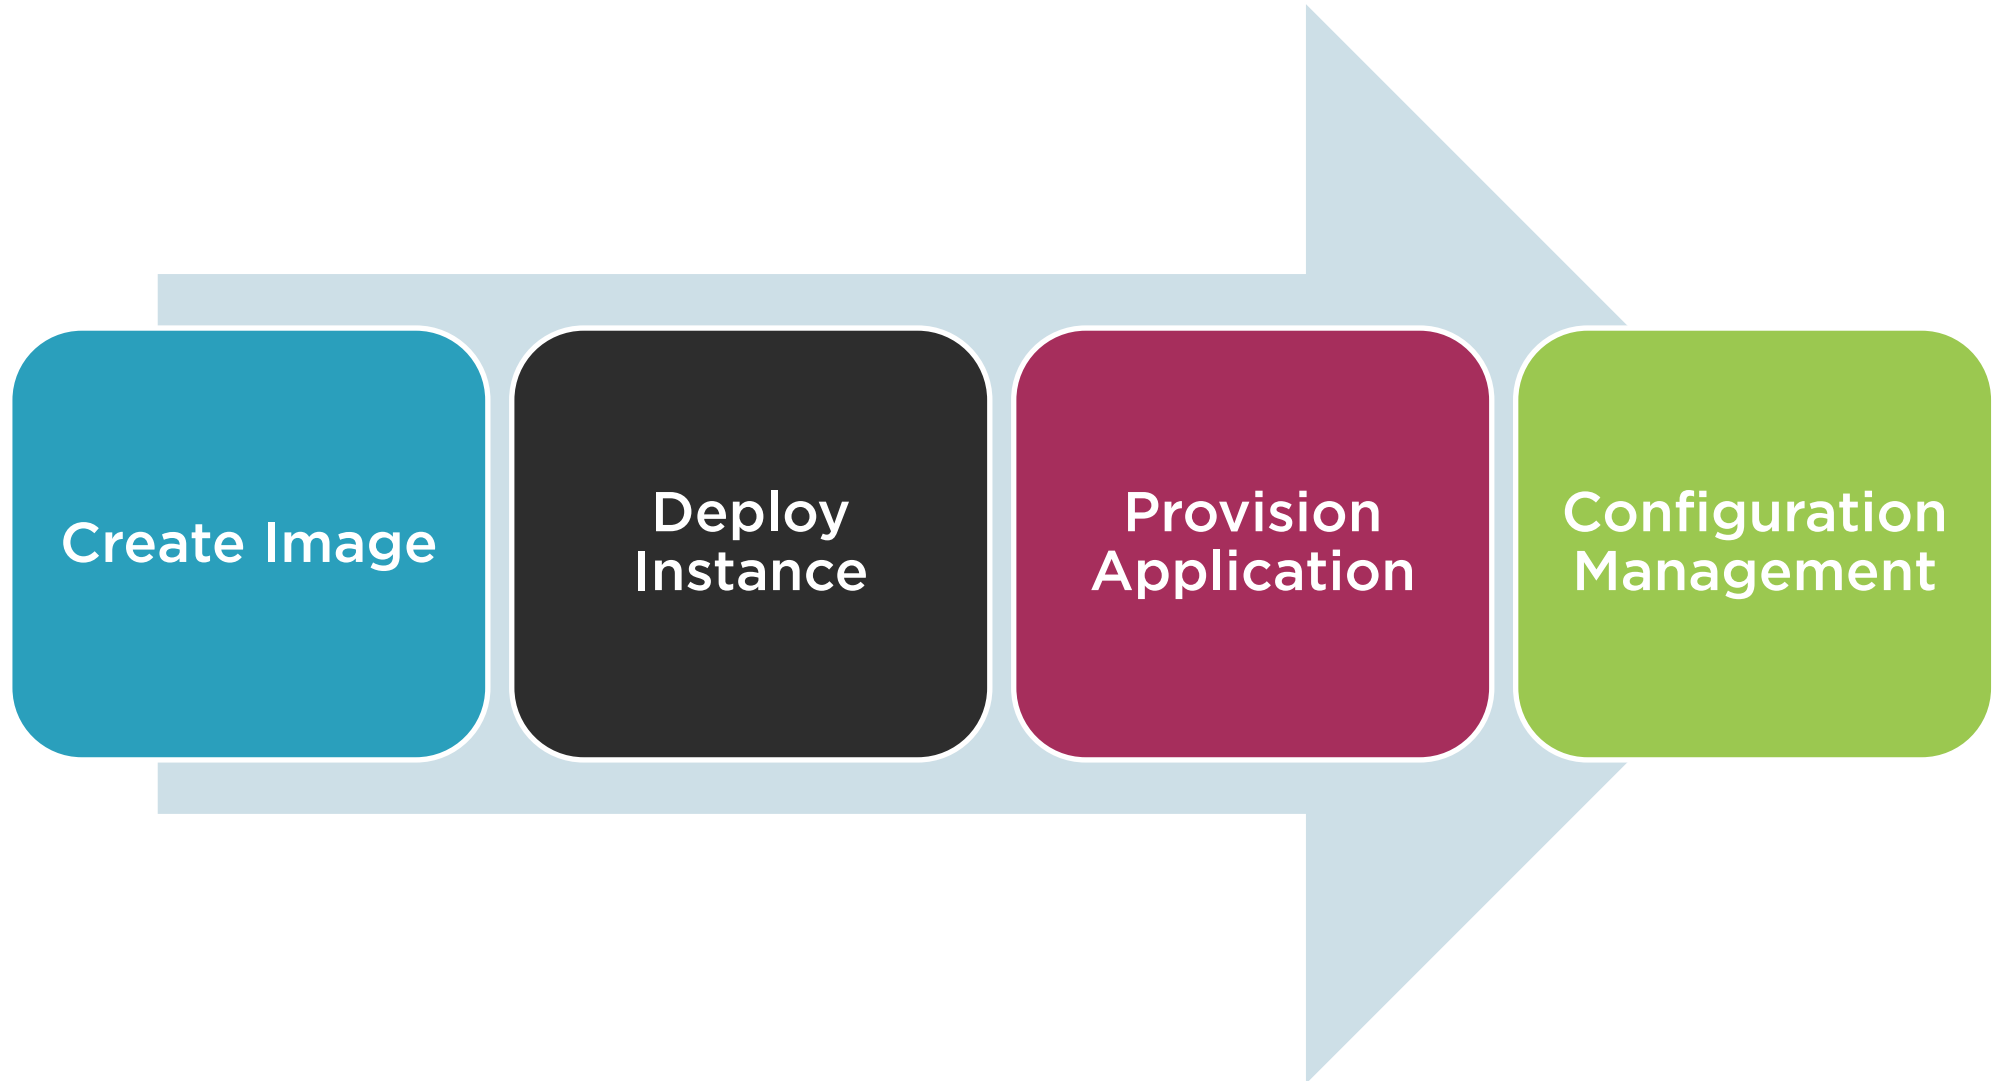

Push or pull

Centralized or
distributed

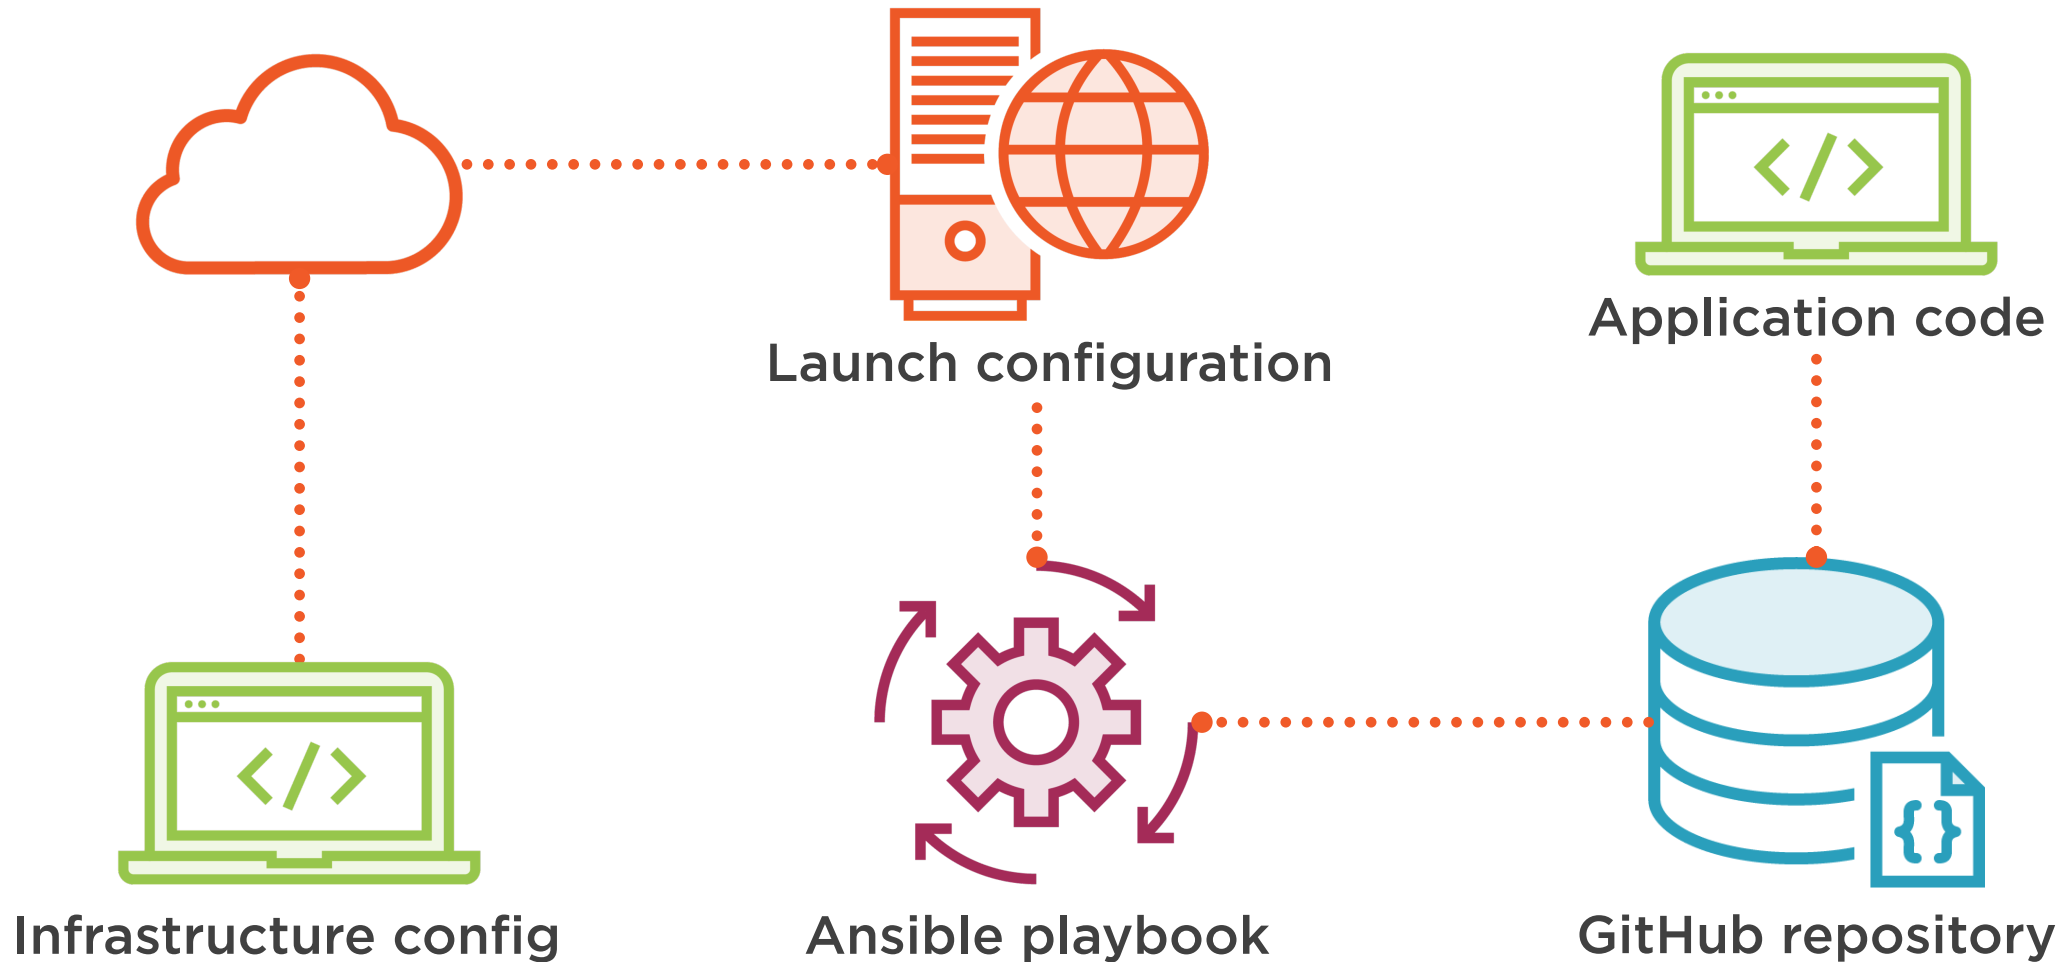

Traditional Deployment

Immutable Deployment

Globomantics Configuration Management

Summary

Terraform doesn't do everything

Configuration management is another tool

Pick the best tool for the job

What's Next?

Terraform Cloud

Get certified

HashiCorp family

- Vault, Consul, Nomad

DevOps tools

- SCM, CI/CD, containers, config management

Course Summary

Terraform is part of a larger ecosystem

You are part of a large ecosystem

Learn tools, focus on concepts

Have fun!

Go Build Something
Awesome!
